- Plus 500 more!

## ADVANCED TECHNOLOGY

Keeps you  
operating at  
optimum  
efficiency.

## PRODUCTION IMPROVEMENT

Helps kill  
downtime and  
increase your  
bottom line.

## INVENTORY CONTROL & VENDING SOLUTIONS

Eliminate inefficiencies  
that cost you time  
and money.

Web-Based Barcode Tool Crib Inventory  
Control and Web-Based Vending.

Atwood Inventory Management  
Programs locate supplies at point of use  
to lower cost. Eliminate time consuming  
trips to tool crib, tracks  
cost to jobs, department,  
or accounts.

# Always Have the Right Tool. At the Right Price.

Because of our strong relationships, large volume buying and purchasing agreements with leading cutting tool and abrasives manufacturers, we can offer you pricing that isn't available to small volume purchasers.

# Atwood Advanced Integration Lets You Be More Productive and Cut Operating Costs.

## Supplier Consolidation Pays Big Dividends.

Using Atwood as your one-source supplier will keep your operating costs in check by cutting purchasing time, extra paperwork and processing costs.

## Easy Ordering.

No more wasting time calling multiple suppliers. You can be confident, Atwood will always have what you need. Delivered when you need it. Always at a competitive price.

## Web Access 24/7.

Through the Atwood website. Obtain product specs with links to over 100 manufacturers. E-mail us with questions.

## Simplified Billing.

You can receive monthly billing for all your purchases, along with detailed reports. Other advantages include: E-Commerce, EDI, Bar Code Purchasing and Receiving, A.E, Visa, M/C.

## Streamlined Inventory Management.

Helps eliminate obsolete tools in stock and makes sure you're using current technology that keeps you operating at optimum performance. Atwood inventory solutions help you better manage your inventory and drastically cut costs.

## Documented Savings.

Atwood advanced tooling technology, production improvement solutions, and streamlined purchasing and inventory control can reduce costs significantly in all areas of your operation. We can also provide documentation for our key customers. And, as part of your continuous improvement program we will always look for innovative ways for you to operate more profitably.
